A LITTLE BIT ABOUT MYSELF

Fathered by an electrical and computer engineering professor who instilled a passion to first start programming at 11. Attended classes in school every year since and have always been eager to learn more. Started coding with Scratch then spent all of high school in web design/front end classes.

PROFESSIONAL EDUCATION

- University of Washington Coding Boot Camp
Full Stack Web Development
(July '19 - Jan '20)
 - Found myself organizing groups and delegating tasks on projects.
 - Guided fellow classmates through difficulties during projects and activities.
 - Final class project awarded "Best UI/UX" as well as third overall project.
 - Challenges: Adapting to back end languages/technologies. Motivating less committed team members in a group setting.
- North Seattle Community College
 - 102 Intro to Programming (Winter 2018)
 - Javascript (Winter 2018)

PERSONAL PROJECTS

COMMISSION PROJECT

Online Store/Website, 2019

Time on project - 3 months

- Worked with the client to develop a store/website.
- Learned how to professionally interact with a client.
- Negotiated design elements to maximize client satisfaction while maintaining a readable and user friendly website.
- Researched and learned about setting up a secure transaction method.

LANGUAGES & SOFTWARE

	<u>Top Languages</u>	<u>Known</u>
CSS	(8+ years 9/10)	Bootstrap
HTML	(8+ years 9/10)	Node.js
JavaScript	(3+ years 7.5/10)	MySQL
		API
		React.js

LIFE GOALS

- Be a full time animal foster parent when I retire.
- Explore new life, civilizations and to boldly go where no man has gone before.
